Will Fever brings you a fresh mix of different electronic music genres combined in a quality blend. Sweet-and-spicy musical combinations making every performance a unique experience.

Working on his own music in his hometown Ghent, gives him lots of inspiration to get the 'finest music cuisine' on your plate.

Inspiration, suspension, surprises and a lot of love for the electronic music genre are his main ingredients to explore new levels as producer, dj and live performer.

Will Fever presents you his 'Dystopia' album. This album is not just a house, techno or electro record. It's a story.

Dystopia – or simply anti-utopia – is a mysterious and honest record at the same time.

Together with some friends, Will Fever created this album in his studio in Ghent. This album is released on Trashz

Records (IT).

Debuted with a live show of uplifting electronic music tracks, uniquely fresh sounds that manages to keep you and your dancing feet at attention.

He started working on 'Dystopia' and Sara Rogers joined along the way. They created some tracks and perform them live. He's involved in working on her next full album.

Now he's ready to tell his 'Dystopia' story so you can dance the night away to new electronic tracks that are going to bring the listener in a higher state of consciousness.
